

## Easy, Convenient Rack Damage Assessments... at Your Fingertips

### Never Compromise Safety for Convenience — Apex Rack Repair App Delivers Both! – We're Apex and We've Got This!

The Apex Rack Repair App is your guide through a pallet rack inspection or damage assessment. Simply download the app onto a smartphone or tablet and follow the prompts to capture all necessary details. Upload your results to the Apex PROs for review and we'll promptly provide recommendations for repair or replacement.

#### Apex Rack Repair App:

- Record all risk locations - missing, compromised, or damaged components
- Photograph at-risk components
- Follow prompts to capture vital specs
- Upload findings to Apex for review
- Receive:
  - » Comprehensive report
  - » Safety severity assessment
  - » Next steps - independent repair/ replacement solutions

**Download the App!**

## Certified Rack Inspection for Optimal Safety & Performance

Hire the Apex PROs for all your pallet rack inspection needs. Whether a one-off or routine inspection service, our team is fast, comprehensive, and non-disruptive to your busy operations.

The Apex PROs rely on the Rack Repair App to secure all necessary inspection findings.

The PROs undergo extensive system design, features, and installation training to ensure your storage racking is operationally sound. SEIZMIC Engineering, experts in material handling system engineering, endorses our training program and certifies our installers to perform inspections.

Inspections cover damage assessments, structural integrity, proper usage, and overall safety concerns --You receive comprehensive reports and independent repair solutions, saving time and money ensuring racks are quickly serviced and returned to operation.

**Contact Apex to schedule your next rack inspection!**
