

# Automotive Tools & Parts Storage

## Custom-Built Mechanic Tool Boxes, Workstations & Cabinets

You require, durable, adaptable, and secure storage for your valuable auto parts & equipment. We've got what you need - **Let's Build Your Solution!**

### Auto Mechanic Toolboxes

Unique tools need a unique storage solution. Configure your toolbox with drawers, doors, protective inserts, locks, electric strips, wheels, and more.

- Modular design - mix & match components
- Heavy-duty steel construction
- Stable & safe
- Stationary or mobile
- Color choices

### Auto Shop Workstations & Cabinets

Create more efficient workstations to improve productivity and better serve your customers.

- Custom service counters - drive-up options
- Parts organizers reduce stock-outs & waste
- Display systems - slat & grid wall
- Mobile file systems - dense file storage
- Archive & wire security rooms

### Auto Parts Storage & Shelving

Optimize space and protect parts and equipment from damage with heavy-duty, easy-access shelving.

- Mix & match open or closed shelving
- Store batteries & tires in safe, specialty rack
- Secure engines, trans, bed liners in high-capacity rack
- Quickly assemble & reconfigure
- Accessorize for enhanced capacity & function

We have the tools to make your tools and equipment feel right at home in your **parts department, mechanic bays, and service area**. Call today for help customizing your solution.
